Reading Keys™ Level 5

Welcome, Parents

Reading Keys lets you participate in your child's reading education. The Discovery Disk evaluates reading ability with a simple test that responds to the child's answers by moving to higher or lower level questions. The Learning Disk takes it from there, with a logical series of lessons and exercises. The child is rewarded with a "score" of Mastered, Tried, or Not Tried. With Reading Keys and your encouragement, your child will enjoy a valuable learning experience and improved reading skills.
